

# BRILLANT perfect

## Sustainable development and production

### EMAS:

- Continuous improvement of environmental performance
- Annual sustainability report
- Energy and water management
- Social Fairness

### DIN ISO 14001:

- Continuous improvement in reducing waste and CO2 emissions, and saving of energy, water and material consumption

### ISO 50001:

- Continuous improvement of energy management: performance, efficiency, security, use and consumption

### A.I.S.E.-Charter:

- Safe and sustainable manufacturing of cleaning products

### DIN ISO 9001:

- Continuous improvement of management processes and customer satisfaction
- Established quality management system in product development and production

## **green-Effective® High-performing rinse aid**

- Eco-efficient performance with eco-effective product design

User and environmental safety at the highest cleaning performance

3080 0093

- Certified with the Nordic Ecolabel Nr. 3080 0093
- Registered in the positive list of „DIE UMWELTBERATUNG“
- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration

## Complete biodegradability

- BRILLANT perfect with all its ingredients is totally biodegradable and has proven this important property in an accredited mineralization test according to OECD 302 B standard\*

\*for more information please visit [www.wmprof.com](http://www.wmprof.com)

## Intensive use of renewable resources – continuous increase of the reutilisation score

- Production under extensive use of renewable raw materials and energy using to 100% hydroelectric, solar and geothermic power
- Production widely independent of crude oil: 61% of organic carbon processed in BRILLANT perfect originates from renewable plant resources which enables a production that is widely independent of crude oil
- Active water stewardship maintaining an own fresh and waste water treatment

## Full transparency - complete ingredient declaration

5-15% non-ionic surfactants (fatty alcohol EO adduct, sugar surfactants), <5% anionic surfactants (sodium alkyl sulfate)  
 Specific ingredients: water, alcohol, citric acid

## Traditional German quality - driving your durable business development

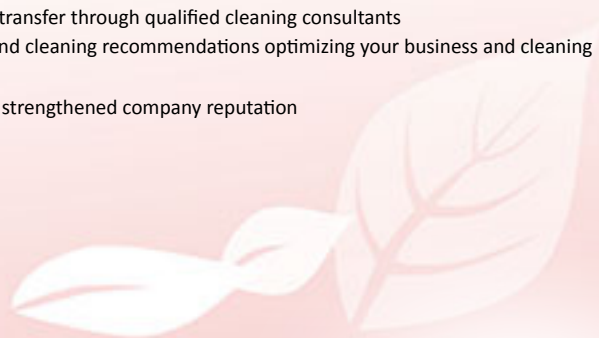

- More than 25 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

## Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning procedures
- Increased service value and strengthened company reputation

# BRILLANT perfect

## green-Effective® High-performing rinse aid

- Very high shine ■ All water types ■ Economic in use

### Product profile

- BRILLANT perfect has an excellent rinsing performance in soft to medium-hard water. It provides high shine on glasses, cutlery and dishes.
- Meanwhile enhancing the work safety, it accelerates the drying time thanks to highly effective wetting agents and natural alcohol
- It prevents lime scale on dishes and neutralizes alkaline residues of the cleaning bath thanks to organic acid.
- Also it neutralizes alkaline residues of the cleaning bath thanks to its formulation
- Majorly composed of renewable resources, BRILLANT perfect takes on the responsibility for future generations.

### Area of application

- BRILLANT perfect is for all types of dishwashing machines e.g. big ribbon and single-tank machines.
- Applicable for all dishes and cutleries.
- Use in combination with green care ENERGY perfect.

### Product safety, storage and environmental instructions

**Safety:** For professional use only. For further information, see Safety Data Sheet.

**Storage:** Store at room temperature in the original container.

**Environmental:** This Ecolabelled detergent works well at low temperatures. Select low temperature washing cycles on the dishwasher, wash full loads and do not exceed the recommended dosage. This will minimise both energy and water consumption and reduce water pollution. Only give completely emptied packaging to special waste disposer.

### Application and Dosing

Dose in relation to application and degree of water hardness. Follow below instructions.

suitable for all types of dishwashing machines.

automatic dosing systems highly recommended.

0,2-0,4 g/L

soft water

0,3-0,5 g/L

medium hard water

0,4-0,6 g/L

hard water

put the dishes in an upright position and let them drip dry.
