Concentrated

Floorcare Chemical

ENVIRONMENTAL & PACKAGING

HOW TO USE

Must be applied to a clean grease free floor. Apply a thin even film of seal using a clean lint free mop or applicator. Apply a second coat when the first is dry (approximately 30 mins)

Coverage 50 square metres per litre

Maintenance Must be finished by the application of metallised polymer emulsion and normal maintenance techniques employed.

High Solids Metallised Floor Polish

USES: A high shine, metallised floor polish with excellent performance in a wide range of properties. It may be used on all types of thermoplastics and synthetic floor coverings.

DIRECTIONS: Apply a thin film of polish to a clean, dry floor using a mop or applicator. A second coat may be applied when the initial coat is dry.

N.B. DO NOT USE on unsealed wood, cork and laminate floors.

PROTECT FROM FROST.

CONTAINS: Benzisothiazolinone. May produce an allergic reaction.
