REDUCE CARBON, PLASTIC AND CRUDE OIL CONSUMPTION WITH SWITCH!

When Switching to the Switch system, your use of **10,000 litres** of cleaning agents has the potential to avoid significant amounts of CO2 emissions, crude oil, and plastic consumption.

- 4,330 kg** CO2 emissions
- 1,379 kg** Crude oil
- 738 kg** Plastic

Switch ABOUT THE SYSTEM

**“Very good recyclability,
which cannot be
optimised any further”**
Interseroh

Reusable dosing cap
5ml dosing cap can be reused up to 1,000 times for guaranteed exact dosing.

1 L ultra concentrate
= 800 L cleaning agent/

Side dosing scale
Shows how much product remains.

Sustainable, ultra-concentrated formulation
Meets the highest sustainability requirements and reduces use of cleaning agents.

Simple to access instructions

Sustainable packaging
Bottle and cap made from 100% recycled material and can be fully recycled.

100% recyclable pouch
No use of barrier materials and adhesives.

Removeable label
Printed area is separate from the pouch itself and fused to it only at the edges.

85% less packaging
Compared to a bottle, the pouch saves up to 85% packaging volume.

100% recyclable
Pouch, spout and printed sleeve made from 100% recyclable mono-material (polyethylene or PE)

Refill pouch recommended by independent institutions:
