

ANDARTA HYGIENE SYSTEM 100 AIR FRESHENER KIT

Mounting Instructions:

1. Pull out key assembly and open front cover pulling from top.
2. Select spray time interval – from 5 – 25 min.
3. Select the desired operation mode with inner switch.
4. Using unit as a template, mark holes with pencil for drilling (recommended mounting area for dispenser is 7 feet from the floor, away from ventilation). Dispenser is designed to service 6,000 cubic feet space.
5. Drill hole as marked with 3/16" drill bit and insert plastic wall plugs.
6. Secure unit to wall with screws provided.
7. Insert "D" cell batteries into unit (CAUTION: switch must be in "OFF" mode to prevent premature spraying when inserting batteries).
8. Insert an Andarta Hygiene System 100 aerosol in an upright position, clipping the neck into the top metal ring, and rest the base on the plastic ring.
9. Shut cover and activate the unit by turning the outer switch to "ON" position.

This dispenser unit is only compatible with Andarta Hygiene System 100 Air Freshener refill canisters.

Troubleshooting Guide:

Nothing happens when unit is switched on.	<ul style="list-style-type: none"> • Check day/night/24 hour sensor is set correctly. • Check batteries make a connection
The aerosol won't fit easily into the compartment.	<ul style="list-style-type: none"> • Check the plunger is fully pushed up.
When the plunger comes down the aerosol doesn't spray.	<ul style="list-style-type: none"> • Check the aerosol isn't empty. • Spray the aerosol a few times by hand to loosen the valve. Sometimes, the aerosol valve is too stiff for the motorized unit.

CAUTION:

Switch must be in 'OFF' mode to prevent premature spraying when inserting batteries

Keep out of reach of children
