BUCKETS & WET FLOOR SIGNS vs SLIPSTOP®

THE PROBLEM	THE SLIPSTOP® SOLUTION
Multiple buckets & wet floor signs look untidy	<ul style="list-style-type: none"> Consolidates signage & equipment into one unit Water collected out of sight, improving image
Wet floor signs are easily obscured or knocked over	<ul style="list-style-type: none"> '360' design means slip hazards are always visible Robust, sturdy unit – not easily knocked over
Multiple leaks require multiple buckets/signs – increasing equipment required	<ul style="list-style-type: none"> Wide funnel design maximises collection area Place multiple SlipStops together to further increase coverage Easy storage & assembly: SlipStop® 65 flatpacks; SlipStop® Cone stacks
Buckets are easily knocked over, creating additional slip risk	<ul style="list-style-type: none"> Wide funnel safely & efficiently collects water with no drips Liners absorb collected water, eliminating spill risk
