

CASE STUDY

A SMARTER, CHEMICAL-FREE APPROACH TO FLOOR CLEANING

Coventry City Council

THE PROBLEM

Coventry City Council faced ongoing challenges in maintaining clean and presentable flooring across its facilities. Rising maintenance costs, combined with an increasing reliance on expensive cleaning chemicals, were putting pressure on budgets. Despite regular cleaning efforts, floors remained dull, dirty, and prone to accumulating debris and bacteria. Additionally, the existing cleaning equipment was not delivering the expected results, making the process both labour-intensive and inefficient.

KEY CHALLENGES IDENTIFIED

High maintenance costs for upkeep and cleaning chemicals

Floors appeared dull, dirty, and were accumulating debris and bacteria

Ineffective cleaning methods, with existing equipment was delivering effective results

AT A GLANCE

Stain-free floors

Chemical-free cleaning

Solved onsite health & safety challenges

Increased operational efficiency

THE SOLUTION

Arrow introduced the Ocelot, a cutting-edge safety floor cleaning machine by industry leader Victor. Designed to deliver immaculate results, the Ocelot tackles even deeply embedded debris and bacteria. Equipped with a microfibre pad, it ensures a flawless finish without the need for chemicals.

“The Ocelot machine recommended by Arrow is excellent. Floors are visibly cleaner and stain-free, and it has also saved us money on buying chemicals. The Ocelot isn't just effective on safety flooring – it has provided amazing results throughout our facilities, including kitchen floors, corridors, and communal spaces. The flooring looks like new!”

—Coventry City Council

THE OUTCOME

The Ocelot transformed floor cleaning processes at Coventry City Council, delivering outstanding results:

Significant reductions in chemical costs and maintenance expenses.

Visibly clean, stain-free floors across all facilities.

Exceptional performance on safety flooring, kitchens, corridors, and central areas.
